1.7 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

While the Valuation Report has been prepared independently by the Valuer, the report and this summary is subject to the following:

- a. The valuation exercise is based on prevailing market dynamics as on the date of valuation without taking into account any unforeseeable event or developments, which could impact the valuation in the future.
- b. Novel Coronavirus disease (Covid-19) has been declared as a pandemic by the World Health Organization (WHO). Measures adopted by governments across the globe in form of lockdowns, restricting economic

activities, people movement, etc. have disrupted businesses and economies. In India as well, the government has adopted similar measures to contain the spread of Covid-19 which has caused business disruptions and slowdown in economic activity. Real estate sector like many other sectors is going through challenges posed by Covid-19 disruptions. Though the magnitude of the pandemic and its future impact on businesses is difficult to predict due to the uncertainties caused by Covid-19, the commercial real estate sector has so far shown reasonable resilience to the disruptions caused by Covid-19 and therefore we expect Covid-19 pandemic to have a short term impact on the demand for commercial real estate. We expect the long-term demand for commercial real estate to remain intact and therefore our valuation assumptions reflect our long-term expectation while taking into account any short-term impacts.

- c. The valuation exercise is not envisaged to include all possible investigations with respect to the Subject Properties and wherein certain limitations to the investigations and inspections carried out are identified so as to enable the Reliant Party/Parties to undertake further investigations wherever considered appropriate or necessary prior to reliance. The Valuer has undertaken visual inspection of the Subject Properties and is not liable for any loss occasioned by a decision not to conduct further investigation or inspections.
- d. Assumptions, being an integral part of any valuation exercise, are adopted as valuation is a matter of judgment and many parameters utilized to arrive at the valuation opinion may fall outside the scope of expertise or instructions of the Valuer. The Reliant Parties accepts that the valuation contains certain specific assumptions and acknowledge and accept the risk that if any of the assumptions adopted to arrive at the valuation estimates turns out to be incorrect, there may be a material impact on the valuations. Complete set of assumptions are mentioned in Valuation Reports dated 16 May 2022.
- e. The valuation exercise is based on the information shared by the Instructing Party or the Client, which has been assumed to be correct and used to conduct the valuation exercise while applying reasonable professional judgment by the Valuer. In case of information shared by any third party and duly disclosed in the report, the same is believed to be reasonably reliable, however, the Valuer does not accept any responsibility should those prove not to be so.
- f. Any statement regarding any future matter is provided as an estimate and/or opinion based on the information known at the date of this report. No warranties are given regarding accuracy or correctness of such statements.
- g. Any plan, map, sketch, layout or drawing included in this report is to assist reader in visualizing the relevant property and are for representation purposes only with no responsibility being borne towards their mathematical or geographical accuracy.
- h. Except as disclosed by the Client, it is assumed that the Subject Properties are free from any encroachments and available on the date of valuation.
- i. For the purpose of this valuation exercise, reliance has been made on the Title Reports prepared by the Legal Counsels for each of the Subject Properties and no further enquiries have been made with authorities in this regard. It is understood that the Subject Properties have encumbrances disputes and claims, however, the Valuer does not have the expertise or the purview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation exercise, it is assumed that respective Subject Properties have clear and marketable titles.
- j. The current zoning of the Subject Properties has been assessed on the basis of review of various documents including title reports shared by the Instructing Party and the current land use maps publicly available. The same has been considered for the purpose of this valuation exercise. Additionally, it is also assumed that the development on the Subject Properties adheres/would adhere to the development

regulations as prescribed by the relevant authorities. No further enquiries have been made with the competent jurisdictional authorities to validate the legality of the same.

- k. The total developable/developed area, leasable area, site/plot area considered for this valuation exercise is based on the Architect's Certificate shared by the Instructing Party and the same has been checked against the approvals/layout plans/building plans provided by the Client. However, no additional verification and physical measurement for the purpose of this valuation exercise has been undertaken.
- l. In absence of any information to the contrary, it is assumed that there are no abnormal ground conditions nor archaeological remains present, which might adversely affect the current or future occupation, development or value of the Subject Properties and the Subject Properties are free from any rot, infestations, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques are used in construction or subsequent alterations or additions to the property and comments made in the property details do not purport to express an opinion about an advice upon the conditions of uninspected parts and should be taken as making an implied representation or statement about such parts.
- m. It is also stated that this is a valuation report and not a structural survey.
- n. Unless specifically disclosed in the report, no allowances are made with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Properties.
- o. Given the evolving and maturing real estate markets in India, any comparable evidences (if any) or market quotes provided has been limited to basic details such as area of asset, general location, price/rate of transaction or sale and any other specific details that are readily available in public domain only shall be shared. Any factual information such as tenants' leasable area, lease details such as, rent, lease/rent commencement and end dates, lock-in period, rent escalation terms etc. with respect to Subject Properties is based on the documents/information shared by the Client/Instructing Party and the same has been adopted for the purpose of this valuation exercise. While few lease deeds have been reviewed on a sample basis, the Valuer does not take any responsibility towards authenticity of the rent rolls shared by the Client. Any change in the aforementioned information will have an impact on the valuation estimates and, in that case, the same would need to be reassessed. The relevant information sources are mentioned in Valuation Reports dated 16 May 2022.
- p. All measurements, areas and property age quoted/mentioned in the report are approximate. The areas of Subject Property are based on Architect's certificate as mentioned in (k) above.
- q. The Valuer is not an advisor with respect to any tax, regulatory or legal matters with respect to by Brookfield India REIT. No investigation or enquiries on the holding entity or any SPV's claim on the title of the Subject Properties has been made and the same is assumed to be valid based on the information shared by the Client/Instructing Party. No consideration shall be / has been given to liens or encumbrances against them. Therefore, no responsibility is assumed for matters of a legal nature.
- r. Kindly note that quarterly assessment of cash flows has been undertaken for the purpose of this valuation exercise.

3 Valuation Approach and Methodology

3.1 Purpose of Valuation

The purpose of this valuation exercise is to estimate the value of the Subject Properties forming a part of the portfolio of Brookfield India REIT, for the disclosure of valuation of assets forming part of the portfolio of Brookfield India REIT under the SEBI (Real Estate Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications thereunder.

3.2 Valuation Guideline and Definition

Given the purpose of valuation as mentioned above, the valuation exercise has been carried out to estimate the “Market Value” of the Subject Properties in accordance with the IVSC International Valuation Standards issued in 2021 and effective from 31 January 2022.

As per IVSC International Valuation Standards, “Market Value” is defined as *‘The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.’*

3.3 Valuation Approach

The valuation for the Subject Properties being Market Value, has been derived by adopting income approach, utilising the discounted cash flow method with rental reversion.

The income approach is based on the premise that value of an income producing asset is a function of future benefits and income derived from that asset. Using this valuation method, future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income and cost associated with the property. These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate. A variation of the Discounted Cash Flow Method is mentioned below.

Income Approach - Discounted Cash Flow Method using Rental Reversion

Given the market practice in most commercial/ IT developments involves contracting tenants in the form of pre-commitments at sub-market rentals to increase the attractiveness of the property to prospective tenants. Such benefits are typically extended to anchor tenants. Additionally, there are instances of tenants paying above-market rentals for certain properties as well (primarily owing to market conditions at the time of contracting the lease). In order to arrive at a unit value for these tenancies, we have normalised the impact of such sub/above market leases on the valuation of the Subject Property by estimating the rental revenue achievable at the end of the term, based on the expected rents in the market.

3.4 Valuation Methodology

In order to compute the Market Value of the Subject Properties it is prudent to understand the market dynamics and the location where the Subject Property is located (existing and future supply, demand from occupiers, average office space take up by an occupier in a particular sector, existing vacancy numbers and the rentals, likely growth of the office space etc.). Understanding of the micro market positioning (where the Subject Property is located) with respect to a location is also very important. The next step then becomes to understand the situation of the Subject Property (current achievable rentals, vacancy numbers, competing supply in the micro market etc.) with respect to the micro market.

Each of the steps required to assess the Market Value of the Subject Properties is detailed below. The same have been elaborated in the Valuation Reports also.

Market and Location Assessment:

The Client appointed Cushman & Wakefield (CWI) to prepare an independent industry and market research report, which has been relied upon and reviewed by the Valuer to develop the understanding and assess the relevant micro-markets of the Subject Properties. The said review, was carried out in the following manner:

- i. Market dynamics influencing the rents along with Subject Property rents were studied in detail. Further, the location setting of the Subject Properties in the respective micro-markets were assessed. Analysis of the micro-market was undertaken primarily based on the findings of the industry/market report prepared by CWI and readily available information in public domain to ascertain the transaction activity of office space. The analysis entailed review of comparable properties in terms of potential competition (both completed and under-construction/future developments), comparable recent lease transactions witnessed in the micro-market along with the trends in leasing within the Subject Properties in recent past, wherever available. This analysis enabled the Valuer to have an informed opinion on the market rent (applicable rental for the micro-market where the respective Subject Properties are located) and achievable market rent (Valuer's view on achievable rent for the respective Subject Properties for leasing vacant spaces, potential leasable area under development or planned as well as upon re-leasing of the existing let out area).
- ii. For tenants occupying relatively large space within the Subject Properties, where there may be some instances of areas being let out at lower than market rent, it is assumed that the leases shall revert to market rent following the expiry of the lease, factoring appropriate re-leasing time.

Portfolio Assessment:

- i. As the first step, the rent rolls (which includes review of corresponding leases deeds) on a reasonable sample basis were reviewed to identify tenancy characteristics for the Subject Properties. As part of the rent roll review, major tenancy agreements were reviewed on a reasonable sample basis. For example, for G2 we have reviewed lease deeds of top 10 tenants contributing nearly 90% of gross contractual rentals of the subject property).
- ii. For anchor/large tenants, adjustments on achievable market rent or additional lease-up timeframe have been adopted upon lease reversion wherever relevant.
- iii. Title reports, Provisional Architect's certificates and other related documents as mentioned in earlier sections of the report were reviewed for validation of area details, ownership interests of the Subject Properties.
- iv. Physical site inspections were undertaken to assess the current status of the Subject Properties.

Preparation of Future Cash Flows:

- i. Net operating income (NOI) has primarily been used to arrive at the Market Value of the Subject Properties. The cash flows for the operational, under construction and future development area have been projected separately for the purpose of estimating and reporting valuation in accordance with the SEBI (REIT) Regulations
- ii. The projected future cash flows from the property are based on existing lease terms for the operational area till the expiry of the leases or re-negotiation, whichever is earlier, following which, the lease terms have been aligned with market rents achievable by the Subject Properties. For vacant area, under-construction area and future development area, the achievable market rent-led cash flows are projected factoring appropriate lease-up time frame for vacant/under-construction/future development area. These cash flows have been projected for 10-year duration from the date of valuation wherein 11th year NOI is capitalized (for assessment of terminal value based on NOI). These

future cash flows are then discounted to present-day value (valuation date) at an appropriate discount rate.

Each of the lease was assessed to project the cash flows for a period of 10 years. The assessment was carried out in the following manner:

Step 1	Rental income from existing tenants up to the period of lease expiry, lock-in expiry, escalation milestones, etc. is projected whichever is applicable. In the event of any vacant spaces, achievable market-rent is assumed for future income for such spaces with suitable time for leasing up the space. This data is then used to generate market aligned revenue stream from existing and potential tenants for the desired time period.
Step 2	In the event the escalated contracted rent is higher than the achievable market rent by 15%, the contracted terms are ignored, and the terms are reverted to market. In the event the escalated contracted rent is below 115% of the achievable market rent, the contracted terms are adopted going forward until the next lease review/ renewal. Intent of this step is to project the rental income for respective leases until lease expiry as well as post expiry.
Step 3	Computing the monthly rental income projected as part of Step 2 and translating the same to a quarterly income (for the next 10 years and NOI of the 11th year – considered for calculation of terminal value).

- iii. Recurring operational expenses, fit-out income (wherever applicable, however, the same has not been included in the NOI for the purpose of arriving at the terminal value by capitalisation) and vacancy provision have been adopted in-line with prevalent market practices and conditions. In addition, appropriate rent-free periods have been adopted during lease roll-overs to consider potential rent-free terms as well as outflows towards brokerage. For all Subject Properties, operational revenues and expenses of the respective properties are reviewed to understand the recurring, non-recurring, recoverable and non-recoverable expenses and accordingly estimate the margins on the common area maintenance income, which accrues as cash inflows to the Subject Properties and normalised for the purpose of cash flow projections. The 1-year forward income for the 11th year has been capitalized to assess the terminal value of the development at the end of year 10.
